

Kick-off event: Is there life after the Ph.D.?

Ask a speaker from **The Other Side**

Our speaker is from quite close to home
- in fact, he works in the CFEL building.

Thorsten Uphues spent five years working as an IT consultant and senior IT project manager in the arvato group. He would be pleased to tell you about his experiences and answer your questions about consultancy, the German job market and the semi-permeable boundary between industry and academia. He is also part of an initiative called the Common Purpose Network in Hamburg, which could facilitate other high-carat speakers from other branches. In short, this is our ideal opportunity to pick Thorsten's brains and use his professional network to harvest other brains to pick. Coffee and tea will be provided; bring a cup.

April 2nd from 14:30 - 16:00
Seminar room V

Please register by mailing sonia.utermaann@mpsd.mpg.de.
